

Layout: Button group layout

Group buttons together inline on desktop and block on mobile

Category: Waterlogic fields

Content Blocks Documentation: <https://docs.modmore.com/en/ContentBlocks/v1.x/Layouts.html>

To use this layout, first, insert a nested layout field in your layout, then selected Button group layout. YOU can then enter buttons into this layout On the frontend Javascript will determine if the buttons should be inline or stacked depending on screen width.

The screenshot displays the 'Button Group Layout' configuration interface. It features a sidebar on the left with settings for two buttons. The first button is configured with the text 'Open chat', a light blue color, and a regular font size. The second button is configured with the text 'button text', a ghost color, and a regular font size. The interface includes a sidebar with settings like 'Button Text', 'Button Type', 'Button Destination', 'Content Settings', 'Button Colour', 'Font Size', and 'Font Awesome Icon'.
