

Layout: Page scroll banner

A blue background floating 4 column layout to be used with WL Icon CTA scroll links

Category: Waterlogic layouts

Content Blocks Documentation: <https://docs.modmore.com/en/ContentBlocks/v1.x/Layouts.html>

The screenshot displays the configuration interface for a 'Page scroll banner'. It features a dark blue header bar with the title 'Page scroll banner' and navigation icons. Below the header, there are four identical configuration panels arranged horizontally. Each panel is titled 'WL Icon CTA Icon and link' and contains the following settings:

- Icon:** Water Sparkling (selected from a dropdown)
- Icon Colour:** White (selected from a dropdown)
- Hyperlink Text:** Scroll Link (selected from a dropdown)
- Text Colour:** White (selected from a dropdown)
- Content Settings:**
 - Icon Position:** Top (selected from a dropdown)
 - Hyperlink Type:** Scroll to ID (selected from a dropdown)
 - Hyperlink Destination:** (empty text field)

At the bottom of each panel is a '+ Add Content' button. The interface is clean and modern, with a light gray background and white text for the configuration options.

The page scroll banner is specifically designed to float above the previous section on the page, for example, in the image below the Page scroll banner floats over the hero making the links stand out and helps draw users attention to different sections within the resource.

The image shows a hero section for a website. On the right side, there is a photograph of two glass coffee dispensers with orange liquid being poured into them. On the left side, there is a white text area with the following content:

Coffee machines for your business

Rather use your work space for your staff than your drinking water? No problem! With Waterlogic, you have the ability to choose from a stylish range of compact countertop water dispensers that will give your employees or clients, the same endless supply of great tasting water that our free-standing models provide.

button text

Used by over 1000 businesses around the world.

At the bottom of the hero section, there is a dark blue horizontal bar containing four scroll links. Each link consists of a white icon of a glass with a water drop, followed by the text 'Scroll Link' and a right-pointing arrow. The links are evenly spaced and provide a clear call to action for users to explore different sections of the website.
