

Page template: Page resource section

A full-page template, consisting of multiple content block section templates, layouts and fields, combined with template variable settings and lexicon.

Category: Pages - Articles

MODX Template: [03_Resource_article_section](#)

Any resource designated to be an article section must use the Modx Template 03_Resource_article_section as this changes the view of the resource to present child articles in a more user-friendly way.

Sections on this page where content is not controlled by content blocks:

- Section articles

All content can be controlled on the individual resource, by editing the content blocks fields, layouts and templates.

Example of front end view:
