

15_Product_finder

A template used specifically for the Product Finder.

Template Variables

Product Finder Category

This resource should be duplicated out for each context and only the Icon, Icon colour and text are to be changed for visual and lexicon reasons. DO NOT CHANGE any value inputs as these are set to match the RAW values of template variables. If you require additional select inputs you must contact Gel Studios who can advise the raw value of the TV.

Tabs

The Tab settings control which product categories to search through for products. You need to enter each product category ID (This is the parent ID of the products) and a title for its tab navigation.

MIGX

ID of Parent

Enter the ID of the parent resource to search for products

332

Tab title

Enter a title for this resource to display as tab navigation

Freestanding & Countertop

Figure 8

Type notice

Enter text for the type tab notice modal. The Main title of the modal, tab title and subtitle are all controlled in the Lexicon settings.

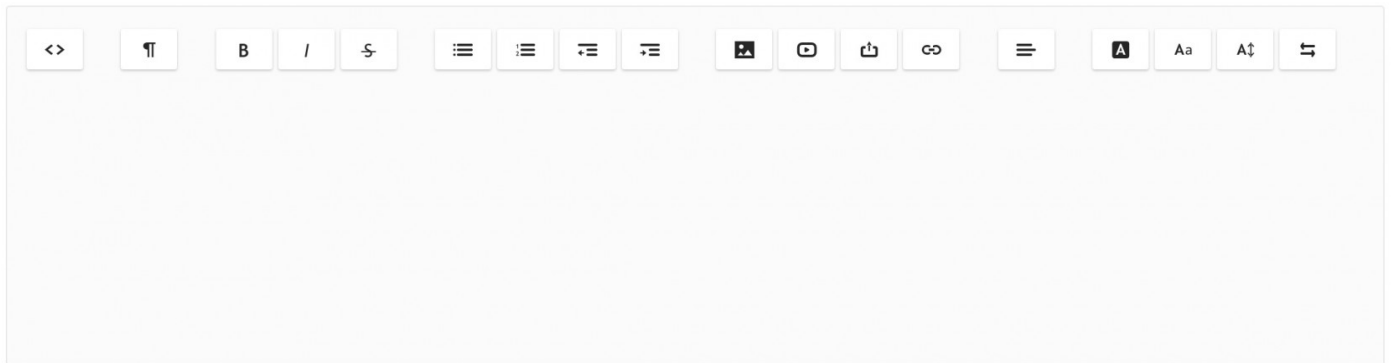

A screenshot of a software interface for a 'Type notice' modal. At the top, there is a horizontal toolbar with various icons: a code symbol (<>), a text alignment icon (¶), bold (B), italic (I), strikethrough (ABC), bulleted list, numbered list, decrease indent, increase indent, image, video, link, unlink, a hamburger menu, a text box icon (A), font color (Aa), font size (A↑), and a link icon. Below the toolbar is a large, empty rectangular text area for entering the notice content.

Figure 9

Product Finder Location

This setting controls the location of the product for the product finder.

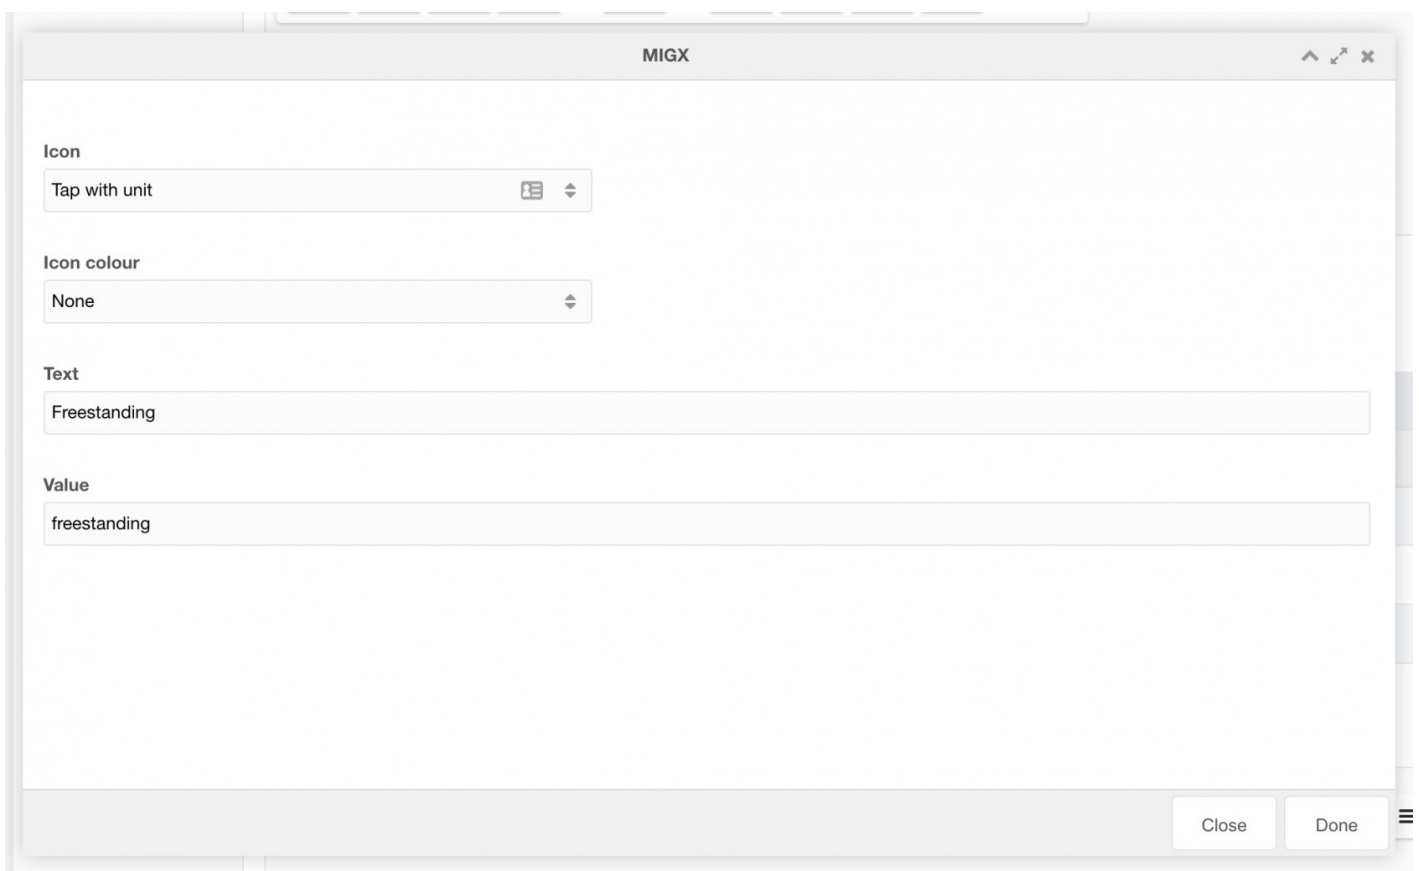

A screenshot of a settings window titled 'MIGX'. The window contains four sections: 'Icon' with a dropdown menu showing 'Tap with unit'; 'Icon colour' with a dropdown menu showing 'None'; 'Text' with a text field containing 'Freestanding'; and 'Value' with a text field containing 'freestanding'. At the bottom right, there are two buttons: 'Close' and 'Done'. The window has a standard macOS-style title bar with minimize, maximize, and close buttons.
