

Field: Column repeater

Inserts a field that allows for any number of columns to be added to a section

Category: Waterlogic layouts

Section options

Setting	Description	Default
Margin top	Space between the top of the layout and the bottom of the layout above	
Margin bottom	Space between the bottom of the layout and the top of the layout below	45px
Padding top	Space between the top of the section and the inside component. Unset by default, if you apply a Section background colour it will add 60px padding-top	
Padding bottom	Space between the bottom of the section and the inside component. Unset by default, if you apply a Section background colour it will add 60px padding-bottom	

Container type	Choose the type of container - No container - Fluid container - Fixed container	
Container classes	Additional classes for the container	
Row classes	Additional classes for the row	
Background colour	Section background colour	

Repeater options

Setting	Description	Default
Contents	A nested layout field that takes any layout. Recommended to use 100% empty as this inserts an empty section which won't affect your contents on the inside	
Columns	Bootstrap column classes i.e. col-12 col-md-8 col-lg-4	col-12
