

Field: Fixed Icon Label

WL Fixed Icon Label.

An icon and text area with the ability to choose from FA icons and WL Icons.

Category: Waterlogic Fields.

The screenshot shows a configuration form for a 'Fixed Icon Label' field. The form is titled 'Fixed Icon Label' and includes a '+ Add Item' button. Below the title, there is a 'Style As' dropdown menu set to 'Heading 2'. The form is divided into two columns. The left column contains an 'Icon' dropdown menu set to 'Cup', an 'Icon Colour' dropdown menu set to 'Blue Dark', and a 'Heading' text input field. The right column contains an 'FA Icon' text input field and a 'Heading Colour' dropdown menu set to 'Blue Dark'. There are also 'x Delete' and 'x Delete Item' buttons in the top right corner.

Settings

Style as: The style of the Icon label default to h4

Icon: An icon from the Waterlogic Icon Set.

Font Awesome Icon: The icon which you would like to appear, If selected then this overrides the **Icon** value. See <https://fontawesome.com/icons?d=gallery> for available icons.

To use a font awesome, search within the Font Awesome website as provided above. Once you have found the icon required, find the *fa-(icon name)* to use:

_____ |

Light Style (fal) •  • e00d • `<i class="fal fa-house"></i>`

Icon Colour: The colour of the Icon. Default Dark Blue.

Heading: The content to sit next to the icon selected.

Heading Colour: The colour of the heading. Default inherited text colour.

Items Per Row : How many items per row? Default to 3

50/50 on mobile: should each repeater item be 50/50 on mobile? By default each item will be 100% and this usually works and allows content to flow the whole width.
