

Field: In Page Slider Content

In Page Slider Content

In page slider content to be used within the "In Page Media Slider" Layout

Category: Waterlogic Gallery and Sliders.

Note: This Field is designed to be used as part of the "In Page Media Slider" layout only.

The screenshot displays the configuration for the "In Page Slider Content" field. It features two identical media slide items stacked vertically. Each item is configured as follows:

- Media Slide Type:** A dropdown menu set to "Image".
- Image Alternating Text:** A text input field.
- Slide Image:** A section containing three buttons: "Choose", "Upload", and "From URL", followed by the text "or drop an image here".
- Video Type:** A dropdown menu set to "Youtube".
- Video ID:** A text input field.

The interface includes a "+ Add Item" button at the top and bottom, and a "+ Add Content" button at the very bottom. Each slide item has a "x Delete Item" link in the top right corner.

Media Slide Type: What type of slide is this? Image or Video. Default to Image.

Slide Image: The main image to use for the slide. Only applicable if Media Slide Type is selected as "Image". For full images, the min height should be 733px and the ratio 1.777. This is also the placeholder image for video if a video is used.

Image Alt Text: Alt text to assist the image if an image is chosen as the "Media Slide Type".

Video Type: If "Media Slide Type" is Video, is the video a Vimeo or Youtube Video? Default to Youtube, and only applicable if video is selected as the Media Slide Type.

Video ID: The Video ID to use for the slide. See ([Field: Video](#))for information on obtaining Youtube and Vimeo IDs.
