

Field: Logo Repeater

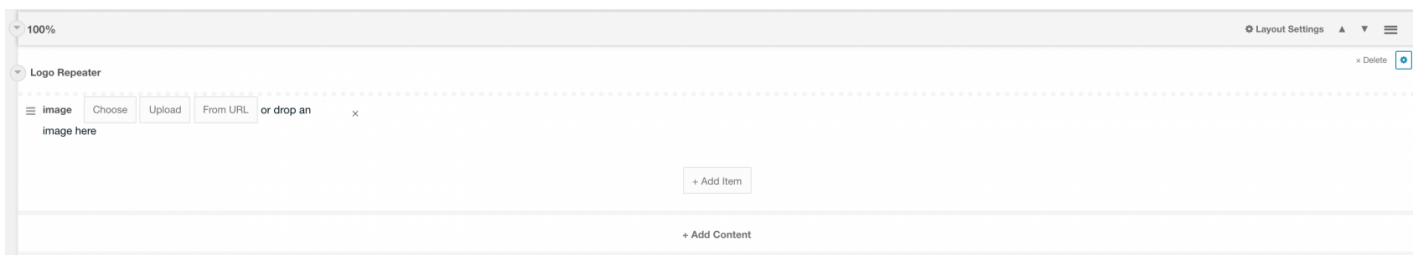

Logo Repeater.

This field repeater allows you to show multiple logos side by side within a layout.

Category: Waterlogic Fields.

Content Blocks Documentation:

https://docs.modmore.com/en/ContentBlocks/v1.x/Input_Types/Repeater.html

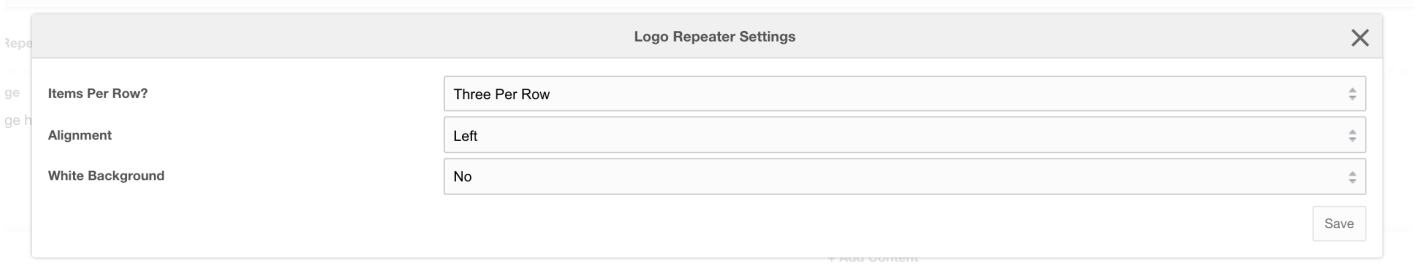

Repeater Settings

Each repeater item has the ability to add an image from the WL library, upload an image or choose and image form URL.

URL images are NOT reliable therefore not recommended.

Settings

Items Per Row: How many images should display within each row. Default to three.

Alignment: Alignment of logos. Default:left

White Background: Should each logo have a white background. Useful when logos are not transparent and on a coloured background. Default to No.

Notes

Background colour can be set for this from the layout (Change the background colour to any of the WL colours. Default to White). As defined the best layout for this field is **100%** as column widths can be setting within this field.
