

# Field: Product Card

## Product Card

**Product card pulls in information from the resource ID.**

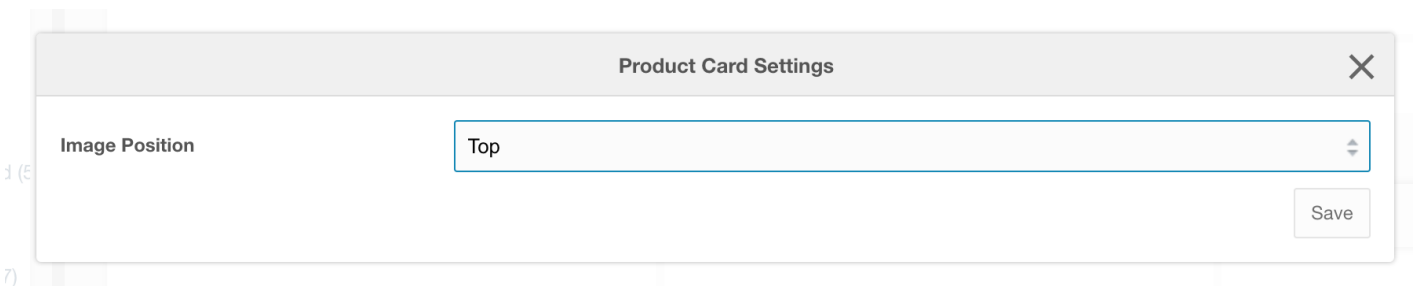

Category: Waterlogic Product card.

Product information pulled in automatically from the resource ID selected, must be a product resource to show the correct information.

A screenshot of a layout editor interface. At the top left, there is a zoom level indicator set to 100%. At the top right, there are icons for 'Layout Settings', a triangle, a downward arrow, and a hamburger menu. Below these, there is a 'Product Card' field. The field title is 'Product Card' and the description is 'Product card information from Product Resource'. Below the description is a text input field labeled 'Resource ID'.

Additional Settings: (as found within field cog, **highlighted in blue**)

A screenshot of the 'Product Card Settings' dialog box. The dialog has a title bar with 'Product Card Settings' and a close button (X). Inside the dialog, there is a label 'Image Position' followed by a dropdown menu. The dropdown menu is highlighted with a blue border and shows the value 'Top'. At the bottom right of the dialog, there is a 'Save' button.

## Settings

**Resource ID:** The resource ID (product) that you would like to display within this product card.

**Image Position:** Should the image position be to the left of the product card or top of the product card? Default to Top.
