

# Field: Regional Offices

## Regional Offices

Field to show all regional offices set through the Office Custom Manager Page (CMP).

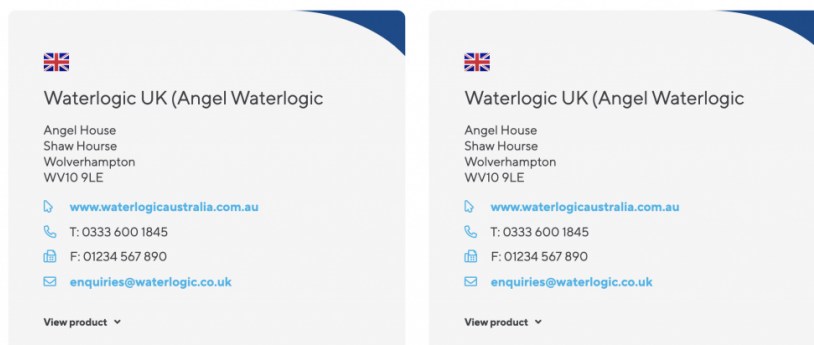

Category: Waterlogic Fields

Location cards showing offices directly from the current context used. E.g if UK context then all UK offices will show.

There are no settings for the Regional Offices field. All content for each specific office is managed via the Custom Manager Page (CMP) for Offices. **See Managing Offices within the Modx manger (TBC)**
