

Field: Sidebar block

Sidebar block is the base layout that Sidebar CTA and Sidebar Help are built on.

Category: Sidebar

The sidebar block is used as a building block for sidebar call to actions and helper sections. It should be added via a nested field within the sidebar area of a Sidebar layout. You shouldn't need to use this block as both the Sidebar CTA and Sidebar Help templates are provided.

Section options

Setting	Description	Default
Background Colour	Section background colour	transparent
Text colour	Font colour	inherit
Sidebar block type	Select if this is a Helper block or a Call to action block	Helper block
Data-UID	A unique ID of the container for skip to links
