

# Field: Tab Title

## Tab Title Repeater

Tab title repeater list to be used with "tabs" container only.

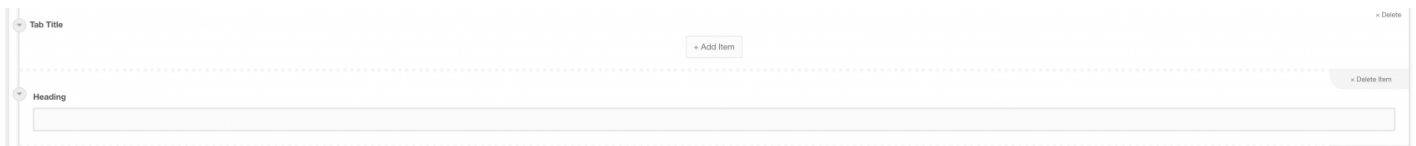

---

Category: Waterlogic Layouts.

Content Blocks Documentation: <https://docs.modmore.com/en/ContentBlocks/v1.x/Layouts.html>

NOTE: Tabs Title repeater is the base start for creating tabbed content within content blocks using the tab title and tab content fields. A tabbed content template has been set up called "Tabbed Content" with all settings defined and sample content to start with.

---

The screenshot shows a user interface for a 'Tab Title' field. It features a vertical list of items. The top item is labeled 'Tab Title' and has a small 'Delete' button to its right. Below it is a horizontal line with a dashed border. In the center of this line is a button labeled '+ Add Item'. Below the line is another horizontal line with a dashed border. Below that is a 'Heading' field with a text input box and a 'Delete Item' button to its right.

**Repeater Inputs:** You can add multiple Headings, by default when adding this field there is one ready to go. To add others then click the Add Item, which will create another hyperlink to the list.

### Settings

**Heading:** The heading for the tabbed content. These should be in the same order as the the tab content information.
