

Field: Video Text

Video Text

Vimeo or Youtube video with content to left or right on desktop.

Category: Waterlogic Fields.

Content Blocks Documentation:

<https://docs.modmore.com/en/ContentBlocks/v1.x/Fields/index.html>

The screenshot displays the configuration interface for the 'Video Text' field in the Waterlogic Fields editor. The interface is divided into two main sections: 'Video Text' and 'Video Content'.

Video Text Section:

- Video Type:** A dropdown menu with 'Vimeo' selected.
- Video URL:** A text input field containing '314741342'.
- Video Position:** A dropdown menu with 'Left' selected.
- Video Content Background White?:** A dropdown menu with 'No' selected.

Video Content Section:

- Rich Text:** A rich text editor with a toolbar containing various formatting options (bold, italic, underline, link, unlink, list, etc.). The text area contains a sub-heading 'Sub-heading here.' followed by two paragraphs of placeholder text: 'Laoreet aliquid aliquam. Wisi dignissimos montes volutpat, inventore illo! Nec. Dolor vitae qui aspernatur, nam magnis hic facilis, sit, quaeerat adipiscing turpis.' and 'Laoreet aliquid aliquam. Wisi dignissimos montes volutpat, inventore illo! Nec. Dolor vitae qui aspernatur, nam magnis hic facilis, sit, quaeerat adipiscing turpis.'

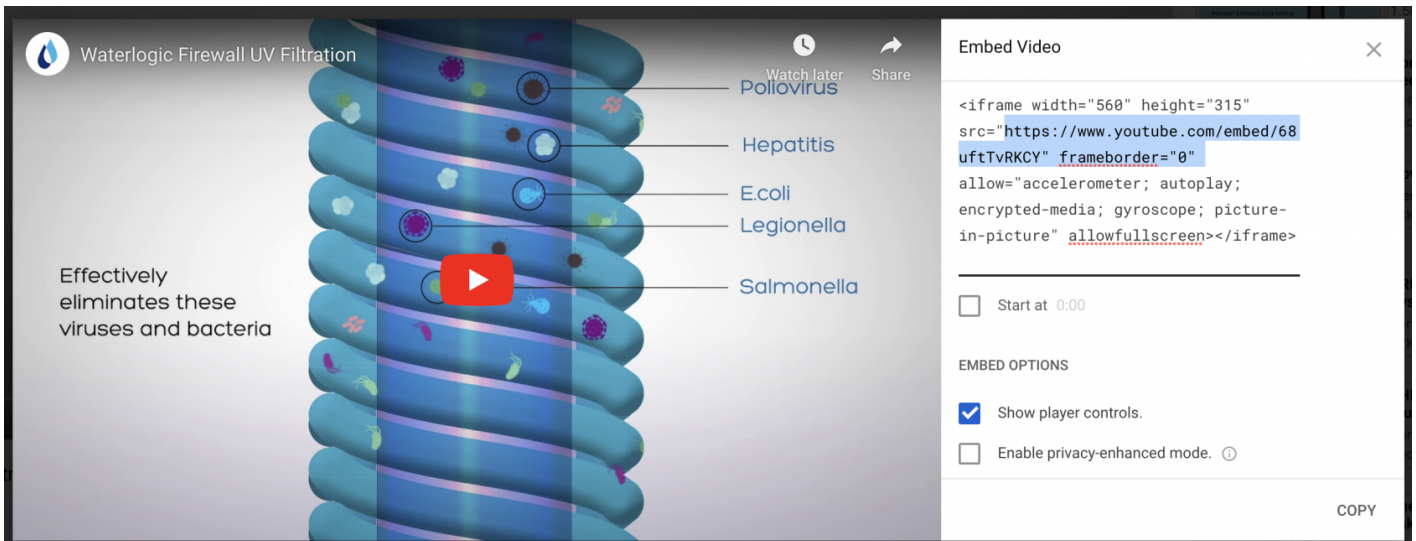

Content Settings Section:

- WL Style RTE:** A dropdown menu with 'Yes' selected.

Video Type: The video source (where the url is hosted from, Youtube or Vimeo). Default Youtube

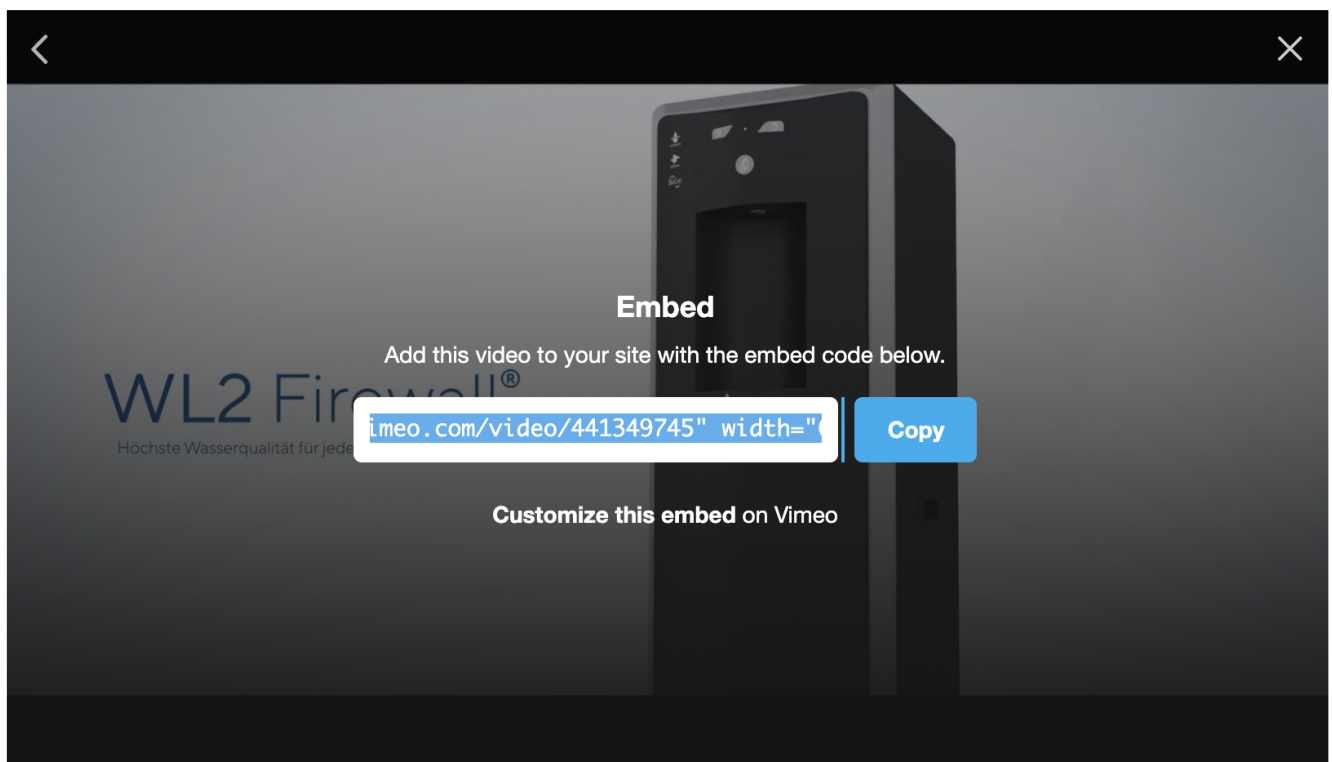

For Youtube Videos:

To show a video on the WL site from Youtube, you need to obtain the video id (i.e for <https://www.youtube.com/embed/68uftTvRKCY> the value to put into the video field would be **68uftTvRKCY**). The only value required is the ID.

For Vimeo Videos:

To show a video on the WL site from Youtube, you need to obtain the video id (i.e for `<iframe title="vimeo-player" src="https://player.vimeo.com/video/441349745" width="640" height="360" frameborder="0" allowfullscreen></iframe>`) the value to put into the video field would be **441349745**). The only value required is the ID.

Video URL: the ID's of the video as advised above, different for both Youtube and Vimeo.

Video Position: The position of the image on desktop (larger screens), options for left or right. Default to left.

Video Content Background White?: When setting a background image on the outer container, this should be set to Yes to allow the content area to show out from the background. Default: No.

Video Content: Layout area allows you put any content next to the video. This area is designed to work with [headings](#), [rich text](#) and [buttons](#). See Example Below:

Sub-heading here.

Laoreet aliquid aliquam. Wisi dignissimos montes volutpat, inventore illo! Nec. Dolor vitae qui aspernatur, nam magnis hic facilis, sit, quaerat adipisci turpis.

Laoreet aliquid aliquam. Wisi dignissimos montes volutpat, inventore illo! Nec. Dolor vitae qui aspernatur, nam magnis hic facilis, sit, quaerat adipisci turpis.
