

Layout: Banner Stacked Icon

A single column banner with image to right or left.

Category: Waterlogic Layouts.

Content Blocks Documentation: <https://docs.modmore.com/en/ContentBlocks/v1.x/Layouts.html>

The screenshot shows a configuration interface for a 'Banner Image Deep' layout. It features a dark blue header with the title 'Banner Image Deep' on the left and 'Layout Settings' on the right. The main area is divided into sections: 'Background Image Desktop' and 'Background Image Mobile', each with 'Choose', 'Upload', and 'From URL' buttons and a text prompt 'or drop an image here'. Below these is a 'Content Settings' section with an 'Image Position' dropdown menu currently set to 'Right'. At the bottom, there are two buttons: '+ Add Content' and '+ Add Layout'.

Layout Options

Background Image Desktop: The image to display on desktop.

Background Image Mobile: The image to display on mobile.

Image Position: Should the image on desktop display to the left of the content or right? Default right.

Content area allows you to add any field to this section. Designed initially to use headings and buttons and WL Dashed Icon List. See example below:

Better for business

Our technologically-advanced range of water dispensers are the perfect complement to your office or work space, achieving maximum performance in busy environments. They deliver the most highly purified, filtered and best-tasting drinking water to keep you safely hydrated and refreshed.

Save time, save money, save space

Our dispensers utilise the mains supply into your building, meaning you don't pay twice for water. It also means you never have to worry about running out of water, wasting time and space re-ordering and storing bottles, or potential workplace injuries and compensation claims from lifting heavy bottles.

Carbon footprint reduction

Our dispensers are designed to provide a clear environmental benefit. The cost of transporting, storing and disposing of plastic water bottles is eliminated. Energy, fuel and water are all conserved. The net result is up to a 72% carbon footprint reduction compared with a bottled water cooler.

Shop the range

Our extensive range of freestanding and countertop dispensers with choice of cold, ambient, sparkling, hot and extra hot water options, and large dispensing areas to cater for jugs and sports bottles, allow you to select the right product for your space, your hydration needs and your budget.

Settings are available by hovering over the field and clicking the cog in the top right

Settings

Padding Top: Padding top for the layout. Default to 45px.

Padding Bottom: Padding bottom for the layout. Default to 45px

Margin Top: Margin top for the layout. Default to 60px

Margin Bottom: Margin bottom for the layout. Default to 0px

Section Background Colour: The colour of the outer section for this full width layout. Default Light Grey.
