

Layout: Page scroll banner

A blue background floating 4 column layout to be used with WL Icon CTA scroll links

Category: Waterlogic layouts

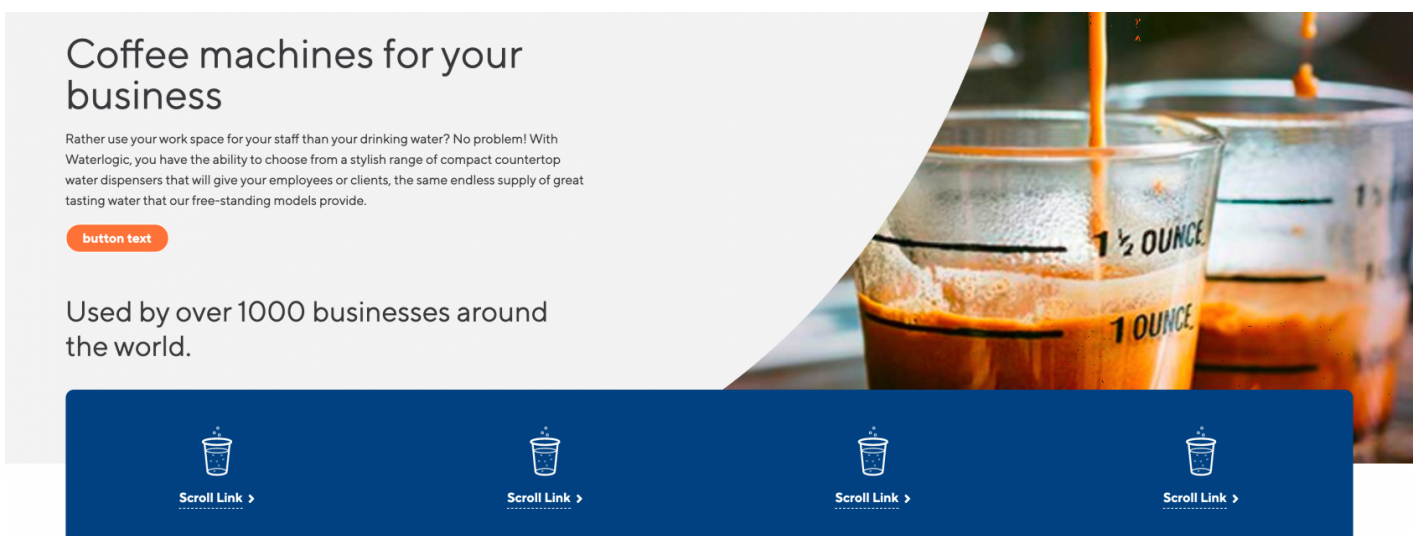

Content Blocks Documentation: <https://docs.modmore.com/en/ContentBlocks/v1.x/Layouts.html>

The screenshot displays the configuration interface for a 'Page scroll banner'. It features a dark blue header with the title 'Page scroll banner' and navigation icons. Below the header, there are four identical columns, each representing a 'WL Icon CTA' block. Each column contains the following settings:

- Icon and link:**
 - Icon: Water Sparkling (dropdown)
 - Icon Colour: White (dropdown)
 - Hyperlink Text: Scroll Link (text input)
 - Text Colour: White (dropdown)
- Content Settings:**
 - Icon Position: Top (dropdown)
 - Hyperlink Type: Scroll to ID (dropdown)
 - Hyperlink Destination: (text input)
- + Add Content** (button)

At the bottom center of the interface, there is a small text label: 'Add layout'.

The page scroll banner is specifically designed to float above the previous section on the page, for example, in the image below the Page scroll banner floats over the hero making the links stand out and helps draw users attention to different sections within the resource.
