

Snippet cb_colours

This snippet will return to content blocks the options for all valid colours used upon the site.

This was made as colours are used a lot - meaning that we update the snippet with any changes, and it will filter down to any/all content block fields/layouts/settings without the need to revisit everyone.

Use this field in options are of the select type. Ensure you select the process tags options.

```
[[cb_colours]]
```

Field Options:

```
[[cb_colours]]
```

Expose field:

Expose field on canvas as a regular f
