

# Breadcrumbs

Breadcrumbs can be controlled and managed on a per resource basis. Settings can be found under template variables heading > Breadcrumbs category.

**Add breadcrumbs to web page?**

No  Yes

**Start ID of Breadcrumbs** *If you want to change the start point of the breadcrumbs enter the starting ID here*

**Breadcrumb colour**

Default  White

Figure 1

Setting	Description	Default
Add breadcrumbs to web page	Option to show breadcrumbs or hide	No
Start ID of Breadcrumbs	Breadcrumbs typically show every parent up to the Home page of the website. You can specify an ID to reduce the number of links in the breadcrumbs if the resource is a deeply nested child.	Empty (Will use home as start)
Breadcrumb colour	Specify the colour of the breadcrumb links, useful for when breadcrumbs sit on top of sections with a dark background colour	Default
